

CEO Cancer Gold Standard™

Re-Accreditation Application

Part I: By checking below the requirements of the CEO Cancer Gold Standard™, I hereby certify that each requirement of the Gold Standard continues to be satisfied in full.

Tobacco Use

- Establish and enforce tobacco-free worksite policies.
- Ensure that health benefit plans include coverage at no cost for evidence-based tobacco treatments (counseling and medications).
- Establish workplace-based tobacco cessation initiatives.

Diet & Nutrition

- Sustain a culture that supports healthy food choices.
- Provide access to nutrition/weight control programs.

Physical Activity

- Sustain a culture that promotes physical activity.
- Demonstrate commitment to eliminating barriers to active lifestyles.

Prevention, Screening & Early Detection

- Sustain a culture that promotes appropriate cancer-screening behaviors.
- Ensure that health benefits plans include cancer-screening provisions that adhere to the American Cancer Society (ACS) or the US Preventive Services Task Force (USPSTF) guidelines.
- Offer health benefit plans that eliminate cost as a barrier to accessing preventive/screening tests and exams, including all vaccines approved by the FDA, and recommended by the CDC, for the prevention of cancer.

Access to Quality Treatment & Clinical Trials

- Provide education and promotion of cancer clinical trials.
- Offer health benefit plans that eliminate cost as a barrier to accessing cancer clinical trials.
- Ensure that health benefit plans provide access to cancer care at Commission on Cancer-approved facilities and/or NCI-approved cancer centers.
